- 14:20-15:00 Extended Lymph Node Dissection in the ICG era
Dr. Erdem Canda, Dept of Urology

This preceptorship will provide an update on the clinical management of patients with prostate cancer.

Didactic lectures will present the many recent advances in the treatment of this disease and their integration into the multidisciplinary management of patients with early stage, high risk, and metastatic prostate cancer.

Presentations will also discuss emerging controversies and ongoing research aimed at addressing them.

Interactive discussions and cases with experts in the field will enhance the learning experience.

Monday, April 29th
