- Contact information for registration: [lcv@kuh.ku.edu.tr](mailto:lcv@kuh.ku.edu.tr)

Dear Colleagues,

I am very pleased to invite you to our symposium on “Novel Imaging Techniques and Image-Guided Focal Therapy in Prostate Cancer” on behalf of the Departments of Urology, Nuclear Medicine and Molecular Imaging, Radiology and Radiation Oncology of the Koc University School of Medicine.

This symposium is not only very timely on a subject which promises to dominate the future of prostate cancer climate but will also help to underline the importance of multidisciplinary team approach in this special area of urooncology in an exemplary manner. Moreover, this area will undoubtedly only move forward by the combined work of all interested specialties around the common needs and not by isolated, subspecialty-blind and as such insufficient efforts.

I would kindly ask you also to note that the invited clinician-scientists from different countries are pioneers of the field and I am sure that your active participation will help to create an exceptional atmosphere for discussion. We at Koç University Hospital feel honored to host and welcome you to such an important and prestigious event.

See you in Istanbul on April 9th.

Prof. Dr. Tarık Esen  
Koc University School of Medicine  
Department of Urology

**08:45 - 09:00** **Opening and Welcome** – Dr. Tarık Esen

### Session I

**Chairs:** Dr. Selami Albayrak, Dr. İzzet Rozanes

**09:00 - 09:15** **Multiparametric MRI in the PSA era** – Dr. Barış Türkbey

**09:15 - 09:30** **Integrating multiparametric MRI into active surveillance protocols** – Dr. Tarık Esen

**09:30 - 09:45** **Multiparametric MRI in biopsy guidance for prostate cancer** – Dr. Barış Türkbey

**09:45 - 10:00** **Q&A**

**10:00 - 10:15** Coffee Break

**10:15 - 10:30** **The drawbacks of multiparametric MRI in the diagnosis and treatment of prostate cancer** – Dr. Shahrokh Shariat

**10:30 - 10:45** **Evaluating prostate cancer recurrences by multiparametric MRI** – Dr. Barış Türkbey

**10:45 - 12:00** **Panel: Multiparametric MRI in prostate cancer – Case discussions**

**Moderator:** Dr. Barış Türkbey

**Panelists:** Dr. Sergin Akpek, Dr. Barış Bakır, Dr. Metin Vural,  
Dr. Shahrokh Shariat

**12:00 - 13:00** Lunch Break

### Session II

**Chairs:** Dr. Faruk Özcan, Dr. Nil Molinas Mandel

**13:00 - 13:15** **Radioligand based molecular imaging in prostate cancer** – Dr. Hans-Jürgen Wester

**13:15 - 13:30** **The utility of Ga-68 PSMAInh PET-CT imaging in prostate cancer:**

**Focus on staging for primary disease and re-staging for rising PSA post-treatment** – Dr. Mehmet Onur Demirkol

**13:30 - 13:45** **Theranostic applications in prostate cancer** – Dr. Aviral Zingh

**13:45 - 14:45** **Panel: Ga-68 PSMAInh PET-CT and theranostics in prostate cancer – Case discussions**

**Moderator:** Dr. Ali Rıza Kural

**Panelists:** Dr. Aviral Zingh, Dr. Hans-Jürgen Wester, Dr. Can Öbek, Dr. Mehmet Onur Demirkol,  
Dr. Levent Kabasakal, Dr. Tibet Erdoğan

**14:45 - 15:00** Coffee Break

### Session III

**Chairs:** Dr. Haluk Özen, Dr. Emin Darendeliler

**15:00 - 15:15** **Challenges and improvements in prostate imaging and biopsy techniques with respect to focal therapy for prostate cancer** – Dr. Barış Türkbey

**15:15 - 15:30** **Active surveillance vs. focal therapy in low risk prostate cancer** - Dr. Jean de la Rosette

**15:30 - 15:45** **Focal therapy in prostate cancer: The future of ablative energies (HIFU, interstitial laser, nanoknife and others)** – Dr. Rafael Sanchez Salas

**15:45 - 16:00** **The role of brachytherapy in focal treatment** – Dr. Uğur Selek

**16:00 - 17:00** **Panel: The modern prostate cancer era – Case discussions**

**Moderator:** Dr. Tarık Esen

**Panelists:** Dr. Haluk Özen, Dr. Barış Türkbey, Dr. Rafael Sanchez Salas, Dr. Jean de la Rosette, Dr. Uğur Selek

**17:00 - 17:15** **Closing Remarks** – Dr. Haluk Özen, Dr. Tarık Esen
