## Invitation

Distinguished Colleagues, Dear Friends,

We are going through a period which all humanity is experiencing tough times. COVID 19 pandemic is hurting. Everyone has mobilized in order this disease to be overcome by our country with the least harm. In parallel to the measures taken, we have decided to make some structural changes related to our congress to be realized on 25-28 June 2020 in Göbeklitepe, Şanlıurfa.

Without doubt that there lies a convenience behind every difficulty. Difficult times have always borne creative and courageous endeavors and revealed new ways for advancement of science. With the assurance that we will pave the way for a better future we are more strong and we have more morale and in more unity and solidarity ever than before. Hence we do not surrender our congress that we planned hold on 25-28 June 2020. Even if this time, physical conditions do not allow us to convene together, we will realize our congress as "Online Congress" on 27-28 June 2020. Making a harder effort more than ever for the scientific programme and organization, we are forming a powerful "Online Congress" consisting of online conference and panels, interactive posters, cases and forums. We will announce you the new information and programme within a short period of time.

We expect to see you at the 10th Eurasian Urooncology Congress where you will be able to participate from your hospital or home. We will have many things to discuss.

We wish you, your family, all urology and urooncology society good health and a bright future.

Sincerely Yours,

April 2020
